Revision History

Date	Version	Revisions
05/01/2013	1.0	Annotated form with variable names
10/22/2016	1.1	Added table for additional med/vitamins/supplements reported in Q12 to last page, added [StudyStaffID]
08/21/2017	2.0	Updated the variable names from the InfoPath names to the final Source File variable names

Notes:

In the final source file, the variable names were updated to include the preface "BL_" needed to differentiate from the same variable names in other forms when creating analytic files. The original InfoPath variable names were the same but without the "BL_" prefix. For example, variable BL_Q1 is Q1 in the corresponding InfoPath form.

The consolidated date variables (example: **[BL_DDate]**) are character variables in the form of 'yyyy/mm/dd'
