Revision History

Date	Version	Revisions
05/16/2013	1.0	Annotated form with variable names
11/23/2013	1.1	Changed time variable names for clarity
10/22/2016	1.2	Added note about consolidated dates, added [KitID], [StudyStaffID]
08/21/2017	2.0	Updated the variable names from the InfoPath names to the final Source File variable names

Notes:

In the final source file, the variable names were updated to include the preface "ST_" needed to differentiate from the same variable names in other forms when creating analytic files. The original InfoPath variable names were the same but without the "ST_" prefix. For example, variable ST_Q2 is Q2 in the corresponding InfoPath form.

The consolidated date variables (example: **[ST_CDate]**) are character variables in the form of 'yyyy/mm/dd'
