

Table of Contents

<u>Chapter</u>		<u>Page</u>
1	Introduction to the Ghana Breast Health Study.....	1-1
1.1	Background.....	1-1
1.2	Organizational Structure	1-1
1.2.1	National Institutes of Health (NIH), National Cancer Institute (NCI)	1-1
1.2.2	Ghanaian Hospital Study Sites.....	1-2
1.2.3	Westat.....	1-2
1.3	Study Design.....	1-2
1.4	Study Components	1-3
1.5	Biospecimen Management.....	1-4
1.6	Data Management.....	1-5
1.7	Timeline.....	1-5
2	Study Staff Responsibilities and Workflow.....	2-1
2.1	Overview	2-1
2.2	Study Manager and Assistant Study Manager Responsibilities.....	2-2
2.2.1	Identifying Potential Cases and Managing their Recruitment	2-3
2.2.2	Managing Recruitment of Potential Controls.....	2-4
2.2.3	Assigning a Participant Identifier (PID) to a Potential Participant	2-5
2.2.4	Assigning Potential Participants to Interviewers	2-6
2.2.5	Creating the Participant Folder.....	2-7
2.2.6	Completion of Study Tasks, Forms, Logs, and Transmittals	2-8
2.2.7	Coordinating with Phlebotomists	2-9
2.2.8	Coordinating with Surgical Staff (Cases Only).....	2-9
2.2.9	Coordinating with Pathologists (Cases Only).....	2-9
2.2.10	Performing Quality Control of Certain Study Tasks.....	2-10
2.2.11	Preparing for Data Entry and Storage.....	2-10
2.2.12	Safeguarding Participant Files and Participant Information	2-10
2.2.13	Reports to NCI and Westat	2-11

<u>Chapter</u>		<u>Page</u>
	2.2.14 Arranging for Biospecimen Packing and Shipping	2-11
3	Recruitment and Eligibility of Participants	3-1
	3.1 Overview	3-1
	3.2 Study Eligibility Criteria	3-1
	3.3 Case Recruitment	3-2
	3.4 Control Recruitment.....	3-3
	3.4.1 Population Enumeration	3-3
	3.4.2 Control selection.....	3-3
4	Reviewing and Obtaining Informed Consent	4-1
	4.1 Overview	4-1
	4.2 Consenting Process.....	4-1
	4.3 Obtaining Consent.....	4-1
	4.4 Avoiding Refusals	4-3
	4.5 Handling Refusals	4-4
	4.6 Formal Refusal Conversion Efforts	4-5
	4.6.1 Protocol for Refusal Conversion.....	4-5
5	Administering the GBHS Risk Factor Questionnaire.....	5-1
	5.1 The Risk Factor Questionnaire	5-1
	5.2 Questionnaire Sections.....	5-2
	5.2.1 Critical Questions	5-3
	5.2.2 Showcards.....	5-3
	5.2.3 How to Record Answers in the Questionnaire.....	5-4
6	Anthropometry	6-1
	6.1 Overview	6-1
	6.2 Equipment and Supplies	6-1
	6.3 Setup of Equipment.....	6-2
	6.4 Quality Control.....	6-3
	6.4.1 Calibration	6-3
	6.4.2 Equipment Malfunction	6-3

<u>Chapter</u>		<u>Page</u>
6.5	General Guidelines	6-4
6.6	General Guidelines for Reading and Recording Measurements.....	6-5
6.6.1	Reading the Measurements	6-5
6.6.2	Reading and Recording System	6-6
6.6.3	Recording Numbers and Making Corrections	6-6
6.6.4	Replicate Measures	6-7
6.6.5	Weight	6-7
6.6.6	Standing Height	6-8
6.6.7	Sitting Height.....	6-11
6.6.8	Hip Circumference	6-12
6.6.9	Waist Circumference	6-13
6.7	Performing Replicate Measurements	6-14
6.8	Care and Maintenance	6-15
7	Preparing for Biospecimen Collections.....	7-1
7.1	Overview	7-1
7.2	Assignment of a Sample ID to a Participant in the Study	7-1
7.3	Contents of the Biospecimen Master Kit.....	7-2
7.4	Verify Biospecimen Labels	7-3
7.5	Proceeding With Biospecimen Collections	7-4
8	Saliva Collection and Storage Procedures	8-1
8.1	Overview	8-1
8.2	Saliva Collection Kits and Labels	8-1
8.3	Completing the Saliva Collection Form.....	8-2
8.4	Procedures for Saliva Sample Collection.....	8-3
8.5	Storage Procedures	8-4
8.6	Form Review	8-4
9	Stool Collection, Processing and Storage.....	9-1
9.1	Overview	9-1
9.2	Completing the Stool Collection Form	9-2
9.3	Stool Collection Procedures	9-3
9.3.1	Hospital Collection.....	9-3
9.3.2	Home Collection.....	9-5
9.4	Stool Sample Processing and Storage	9-6

<u>Chapter</u>		<u>Page</u>
	9.4.1 Processing	9-6
	9.4.2 Storage	9-6
	9.5 Form Review	9-7
10	Blood Collection, Processing and Storage	10-1
	10.1 Overview	10-1
	10.2 Blood Kits and Labels	10-1
	10.3 Completing the Blood Form and Pre-Collection Questions	10-2
	10.4 Blood Draw Procedures.....	10-4
	10.5 Complications of Blood Draw	10-7
	10.5.1 Hematomas.....	10-7
	10.5.2 Red Cross Procedures for Handling Vasovagal Reaction	10-7
	10.5.3 Continued Bleeding.....	10-9
	10.6 Transport of Blood Collection Tubes to Processing Laboratory.....	10-9
	10.7 Processing Blood Specimens.....	10-9
	10.7.1 Processing of Red Top Tube	10-11
	10.7.2 Processing of Lavender Top Tubes.....	10-13
	10.8 Menstrual Cycle Follow-Up with Participants	10-17
	10.9 Form Review	10-17
11	Breast Tissue Biopsies.....	11-1
	11.1 Overview	11-1
	11.2 Breast Biopsy Procedures	11-1
	11.2.1 Breast Tissue Core Fixation Procedure.....	11-2
	11.2.2 Tissue Processing On Receipt at AMPL.....	11-3
	11.2.3 Tissue Processing Protocol at AMPL.....	11-3
	11.2.4 Maintenance	11-4
12	Shipping Biospecimens.....	12-1
	12.1 Overview	12-1
	12.2 Regulatory Requirements.....	12-1
	12.3 Shipping Plan for the Ghana Breast Health Study.....	12-1

<u>Chapter</u>		<u>Page</u>
	12.3.1 Specimens to be Shipped to the United States.....	12-1
	12.3.2 Shipment Schedule	12-2
	12.3.3 Shipment Types: Ambient and Frozen	12-2
12.4	Procedures for Preparing a Shipment to the United States.....	12-2
	12.4.1 Pre-shipment Procedures	12-2
	12.4.2 Shipment Procedures- Frozen Samples.....	12-3
	12.4.3 Shipment Procedures- Ambient Samples.....	12-3
13	Reporting Adverse Events	13-1
	13.1 Introduction.....	13-1
	13.2 Monitoring Adverse Events	13-1
	13.3 Completion of Adverse Events Form	13-2
	13.4 Reporting Adverse Events to Westat.....	13-2
14	Medical Record Abstraction for Breast Cases.....	14-1
	14.1 Overview	14-1
	14.2 Breast Case Abstract Form.....	14-1
	14.2.1 Section A. Diagnosis Information.....	14-1
	14.2.2 Section B. Treatment Information.....	14-2
	14.2.3 Section C. Receptor Status	14-2
	14.2.4 Section D: Surgical Pathology.....	14-3
	14.3 Disposition of Forms	14-6
	14.4 Obtaining the Surgical Report from Non-Participating Hospitals.....	14-6
	14.5 Obtaining the Cytology and/or Pathology Report	14-7
	14.6 Other Histopathologic Review by Study Pathologist.....	14-7
15	Reports, Monitoring and Quality Control.....	15-1
	15.1 Reports	15-1
	15.2 Monitoring	15-1
	15.3 Quality Control.....	15-2
	15.4 Supply Inventory.....	15-2
16	Data Entry and Transmittal	16-1
	16.1 Overview of the Data Entry and Management System.....	16-1

<u>Chapter</u>		<u>Page</u>
	16.2 The User Interface	16-2
	16.3 Windows Service Application	16-3
	16.4 Web Services Application	16-3
	16.5 Data Entry and Management System Requirements and Assumptions	16-4
	16.6 User's Guide for the Data Entry and Management System	16-4
	16.7 User Guidelines for Data Entry.....	16-20
	16.8 User Instructions for Scanning of Forms.....	16-21
17	Data Management and Processing.....	17-1

Tables

11-1	TARP Standard Processing Times Using Tissue Tek VIP 5.....	11-4
14-1	Guidelines for Determining Receptor Status	14-3
14-2	Guidelines for Obtaining Diagnostic Reports.....	14-5

Figures

10-1	Distinct layering of plasma, buffy coat, and red blood cells.	10-14
------	--	-------

Exhibits

2-1	Example of a sheet of labels for one PID	2-6
6.1	Weight	6-8
6-2	Participant position for standing height.....	6-10
6-3	Participant position for sitting height	6-12
6-4	Diagram of site for hip circumference	6-13
6-5	Measurement site for hip circumference.....	6-13
6-6	Diagram for measurement of waist circumference	6-14
8-1	Saliva Collection Kit.....	8-2
